Medicine Name	Dosage	Instructions	Duration
Jeerakadya arista (kottakal / SDL)	20 ml	After breakfast and dinner	20 days
Tab hinguvachadi (Kerala ayurveda)	1 tab	Before breakfast and dinner	20 days
Prataplankeshwar rasa (sdl)	1 tab	After breakfast and dinner	20 days

Final Advice

1. Do's :
   - Maintain a regular sleep wake up cycle eg , 11pm to 6 am .
   - have warm water first thing after you wake up
   - have warm breakfast , if having sprouts have steam cooked sprouts only
   - In comparison to all meals , lunch can be heavier
   - Have fruits during the day , banana , guava
   - Use A2 ghee in food
   - prefer vegetables like gourds
2. Don'ts :
   - Limit consumption of curds
   - Avoid stale food
   - Do not over eat
   - avoid Milk based juice
   - avoid raw vegetables for eating
3. Estimated Conception TimeLine : 6-9 months
4. Follow a planned diet chart of the nutritionist.
5. Compulsory 60-90 mins of exercise in the form of yoga designed by the preconception yoga expert to enhance fertility & reduction of stress.
6. Follow all the suggested medications.
